

Celso de Lemos

PORTUGUESE EXCELLENCE

COLLECTION 2022

ECOLOGICAL

PRODUCTION PROCESS

The Oeko-Tex label obtained by our company is the fruit of a demonstrated commitment to invest in biological water treatment and the use of biodegradable products.

**WATCH OUR
SUSTAINABILITY VIDEO:**

THE **BEST COTTON** IN THE WORLD

Certified Egyptian Giza Cotton Extra Long Staple is recognized as the finest cotton in the world and is used for the production of Celso de Lemos bed linens.

Cultivated on the banks of the Nile, the cotton is picked by hand. The fiber is treated to create yarn of exceptional quality resulting in superior softness, absorbency, durability and elegance.

CARE INSTRUCTIONS

MACHINE WASHING

- Sort your household linen by fibre (cotton, linen, silk, wool), color (whites, light colors) and type of item (sheets, towels, tablecloths).
- Do not include garments with components that could damage fabrics (zippers, hooks, metal parts).
- Make sure the items are unfolded when loading the machine.
- Begin preferably with a pre-soak in cold water and a little detergent.

TEMPERATURE

- Bed linens - wash in warm water maximum 140°F / 60°C with mild, liquid biodegradable detergent.
- Delicate fabrics - cold water 85°F / 30°C, cold final rinse, pre-soaking.

- Use maximum temperatures only on the hardest-to-clean articles:
- Whites 120/140°F - 50/60°C
- Colors 85/105°F - 30/40°C

- Delicate items with lace and embroidery should be enclosed in a large, thin mesh bag.

DETERGENT

- Use a mild liquid biodegradable detergent without added bleach or whiteners.
- Avoid powdered detergent or detergents containing alkali and make sure the detergent is fully dissolved before the water touches the fabric.

DRYING

- When machine drying, never use high temperatures.
- Do not place colored articles in direct sunlight.
- Do not dry longer than necessary.

IRONING

- Use a steam iron on a warm/hot setting for cotton.
- Use a hot setting for linen and a water spritz if needed.
- For embroidered linens, iron them on the reverse side while damp for best results.

DRY CLEANING

- Luxury fibres, such as silk, wool and cashmere, are best professionally cleaned.

STORING

- Store linens folded flat in a cool, dry, well-ventilated area.
- Linens stored long-term should avoid being stored in plastic bags and boxes as natural fibres need to breathe.
- Make sure stored linens are not exposed to direct sunlight which can cause permanent yellowing.
